Subject: Next EJ task meeting

Hi,

Attached is the DTSC update in regards to the TT allegations. Feel free to contact me if you have any questions.

I have a suggestion that you can discuss during your car ride to the task force meeting. I have no objection to you mentioning to the community at this meeting that although the Navy's public meeting on Dec 7th will focus on the Parcel G land use change, that the EPA and DTSC requested that they provide a presentation on the allegations regarding Tetra Tech radiological work conducted at HP. The Navy has indicated that they are not able to do so at the Dec meeting but are preparing to do so for the January meeting. However, the Navy has indicated to us that they will be prepared to answer questions in regards to the allegations at the Dec meeting, though I'm not sure they will provide any more than what is in my attachment.
